### **A HIGH LEVEL OVERVIEW OF BIZZFO POINT OF SALES FOR HOSPITALITY OR RETAIL**

- Bizzfo is a **business platform**, providing **Point of Sales** terminals for your hospitality or retail business.
- Many people with small shops use it to **record sales**, but also to do the stock control providing state of the art **inventory management**.
- It is a system which can **easily be operated**, and you can add new items to your inventory, on the fly.
- Creating **Purchase orders** and changing those into an invoice immediately after delivery.
- The system indicates when **payments to these suppliers are due**.
- It also shows **moneys due to you, by clients**.
- It integrates with certain on-line payment systems (**paygates**.)
- **Cloud interface**, resulting in no loss of information even if disaster strikes.
- The cloud – based system is totally mobile and can be installed on a PC, tablet, or smart phone. You can **manage your business when away** from the business premises.
- Cash-ups and low stock **warnings are e-mailed to management** at the end of a shift.
- **Staff clock-in and out** systems, with fingerprint recognition or passcodes.
- It links with printers to **print the orders, receipts, or invoices**. Bluetooth or Wi-Fi.
- It also provides an **e-commerce** option, so you can sell your products on-line to customers.
- **Scan and save documents**.
- **Manage expenses**.
- **Support and training** provided.
- Regular **upgrades** at no additional costs.
- Suppliers of **state-of-the-art hand-held devices** for your convenience. Mobile devices to make your controls and **speed of service** excellent.
- You can link it with **Q2B Property Management System**, it integrates and shows all transactions in a Point of Sales recon.
- The monthly cost of a license from R 285.00 per month
